PUP Route (special service for hard-to-reach areas)

- Pup is a smaller truck required due to hard-to-reach areas.
- The pup truck will come through your neighborhood at three completely separate times during the day, picking up each material separately. Due to this fact, there will be a lapse in time between each collection and be assured that your trash, recycling and green waste will all be collected by the end of the day.
- A collection-day map is available in this presentation to help determine your collection day. An interactive map is also located online at **www.rpvrecycles.com**.
